

Goethe State Forest

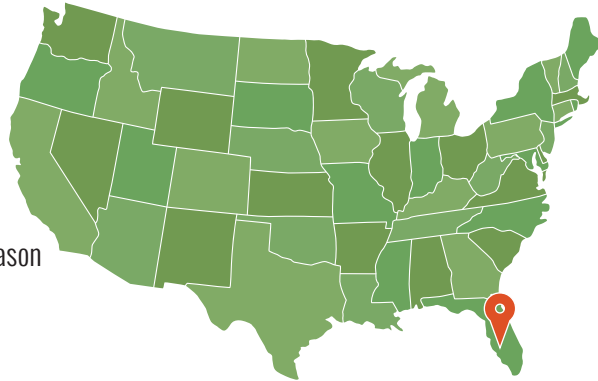

LEVY COUNTY, FLORIDA

REASON FOR PLANTING

PROJECT HIGHLIGHTS:

- December 2016 - January 2017 planting season
- 150,000 trees
- Longleaf pine
- 207 acres

Longleaf habitat restoration will improve ground cover, help to maintain the areas that are part of the aquifer recharge zone and improve water quality flowing in creeks benefiting the Gulf. Red cockaded woodpeckers, white tailed deer, gopher tortoise, and wild turkey will all benefit from the habitat restoration of these areas.
