## Working With A Built-In Appliance Cabinet

All Cabinets.com appliance cabinets are manufactured with a small framed opening that is intended to be modified on-site to fit your specific appliances. This allows flexibility to fit a variety of appliance makes and models, and gives you the ability to get a custom fit. It is important to understand what appliance types work best and where you may have to make additional on-site accommodations to fit your desired appliances. Be sure to consult your appliance manufacturer's installation instructions for specifications on minimum and maximum cutout size requirements.

## Microwave Base Cabinet (MBC)

This cabinet is intended for a single microwave oven that is a "built-in" model (a cabinet-mount unit with an accessory trim kit) or a drawer-style microwave. This cabinet is not intended for a countertop microwave. If you choose to use this cabinet for a non-built-in microwave, the natural maple interior, as well as any exposed edges that have been cut will be visible.

### Maximum and Minimum Cut-Out Dimensions (MBC)

A loose shelf for oven support is supplied with this cabinet.

Cabinet	A Cut-Out		B Cut-Out		C
	min.	max.	min.	max.	
MBC24	17-3/8"	21-3/4"	7-11/16"	17-15/16"	9-3/16"
MBC27	20-3/8"	24-3/4"	7-11/16"	17-15/16"	9-3/16"
MBC30	23-3/8"	27-3/4"	7-11/16"	17-15/16"	9-3/16"
